

My Dear Friends in Industry/business

This gives me immense pleasure indeed to extend to you all, my best wishes for the continued growth in your industrial sector, health, happiness and all round prosperity. May the Lord Almighty shower His benign blessings and bounty unto you all and give you the strength to contribute your mite to serve our revered industrial community.

It is a matter of great fulfillment and satisfaction for all of us that in spite of worldwide recession during last few decades Indian Industry registered close to 10 % growth for which we all feel rightly pleased and proud.

It is also a matter of joy and excitement for us to share the happy news with you that we have established Merit Quality Certification to act as Your Registrar for ISO 9000 QMS certification of your Business at Faridabad.

This millennium is an era of information and knowledge. For fast development, we as a nation have to convert ourselves into a society, which is knowledge centric. ISO 9000 QMS has played a major role ushering in "Knowledge Revolution" from earlier management systems.

Our Industry is on the brink of a period of rapid changes. New knowledge learnt through ISO 9000 QMS enabled services is fast changing the shape of the Industry.

In this era, therefore every aspect of our life is directly or indirectly influenced by how we generate quality information and there from the knowledge. This revolution indeed is directly or indirectly related to our industry. I have no hesitation to state that ISO 9000 QMS is the enabling key and knowledge is the main tool to achieve the objectives & goals of our nation.

"May we assemble and march forward with a common purpose, May we confer together with open minds and work together harmoniously for common good. May we pool our thoughts for integrated wisdom and always work actuated by higher ideals.

I consider life is a sort of a splendid torch and I want to make it glow as brightly as possible before turning it over to the younger generation who, I deem, is quite capable and competent to keep it burning bright.

Once again wishing you and your families, good health, long life, peace and prosperity.

Alok Mohan

(Chief Executive and Partner)
